01 · THE PROBLEM

Every event takes months of work

~3 months

to plan, approve, chase, promote and follow up. **Club talk or hackathon, same story.**

all by hand, every single time

Typical timeline from the club events we have run · Sign-off and report deadlines: UOW Malaysia KDU clubs handbook

50+ EVENTS LATER · THE CREW

We know this pain more than anyone.

02 · WHAT AN EVENT NEEDS

One event, a dozen people to coordinate

AN EVENT OF THIS GLOBAL SCALE

takes months

W1	W2	W3	W4	W5	W6
W7	W8	W9	W10	W11	W12

proposals, sign-offs, 100s of emails...

BUT WHAT IF IT TOOK

03:00

MINUTES

Proposal, budget, speakers, sign-offs. **One prompt.**

INTRODUCING

Movents

events, minus the dents.

Our vision: no event team loses months to paperwork again.

your society's all-access pass →

03 · ONE PROMPT

One prompt is your ticket in

ADMIT ONE PROMPT

”Plan a 150-pax AI talk at Sunway on 15 Nov, budget RM3,000.”

DATE	PAX	BUDGET	VENUE
15 NOV	150	RM3,000	SUNWAY

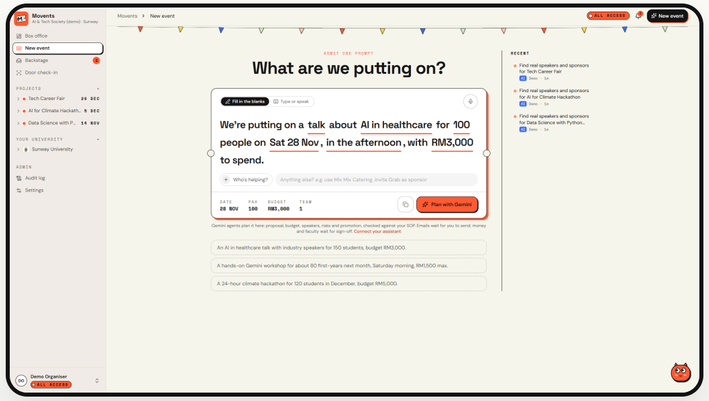

YOU WALK OUT WITH

- ✓ Proposal in your uni's format
- ✓ Budget with real quotes
- ✓ Speakers found and invited
- ✓ Risks and mitigation
- ✓ Calendar deadlines
- 🔒 Emails, sent once approved

After the event, a second prompt writes the post-event report.

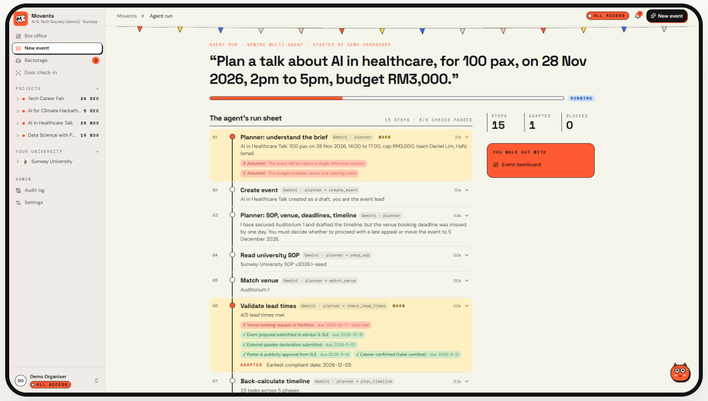

SEE IT IN ACTION

Live on Google Cloud, end to end

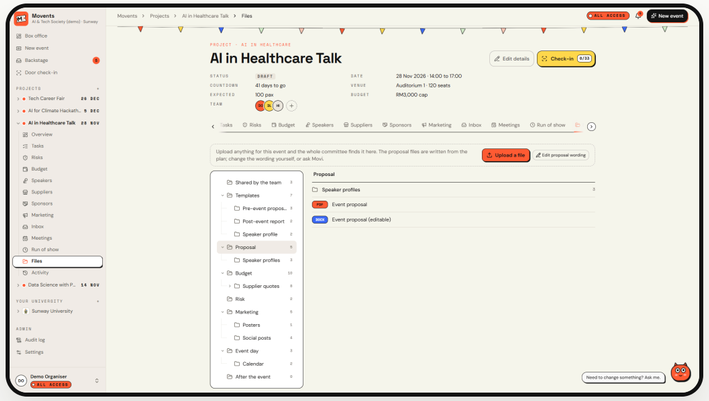

1 · One prompt in

Fill in the blanks, hit Plan with Gemini

2 · Agents plan it live

Checks lead times, adapts when one fails

3 · The event pack

Proposal PDF and Word, budget, risks, marketing

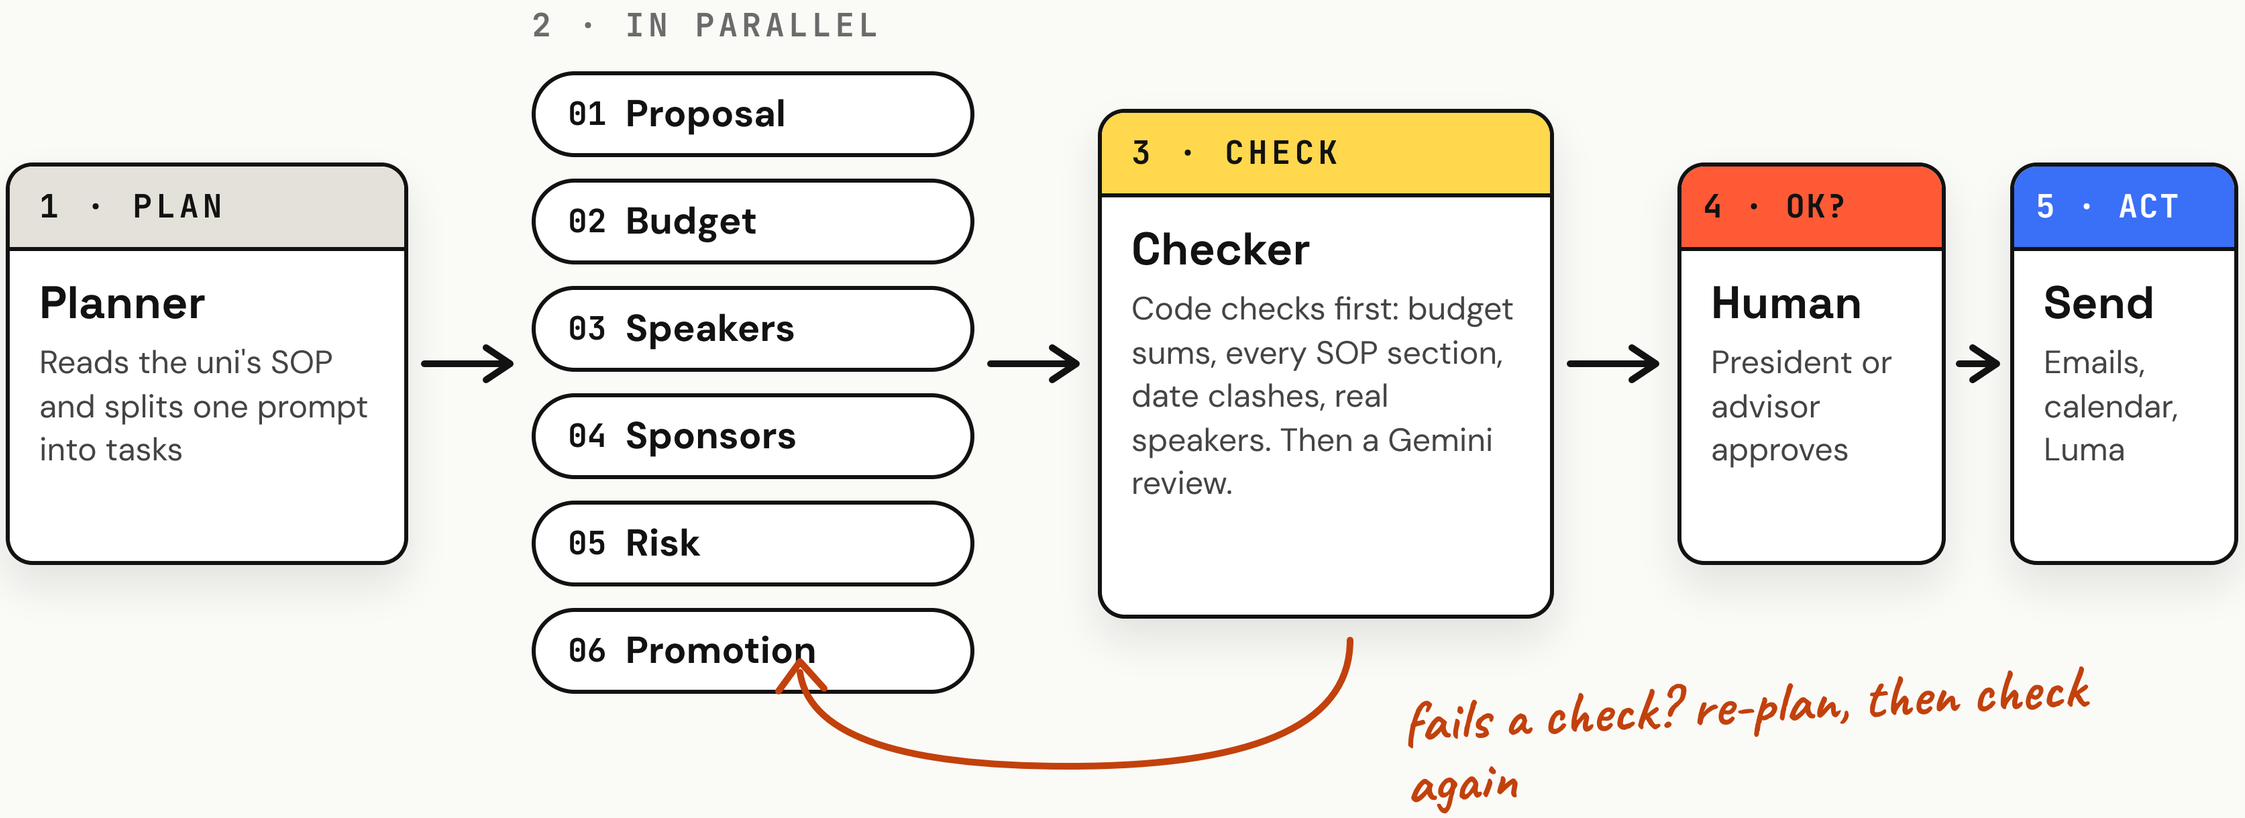

TRY IT LIVE · NO ACCOUNT NEEDED

movents-743449161087.asia-southeast1.run.app

Code: github.com/ZenBen5173/movents-ai-builder-cup

04 · HOW IT WORKS

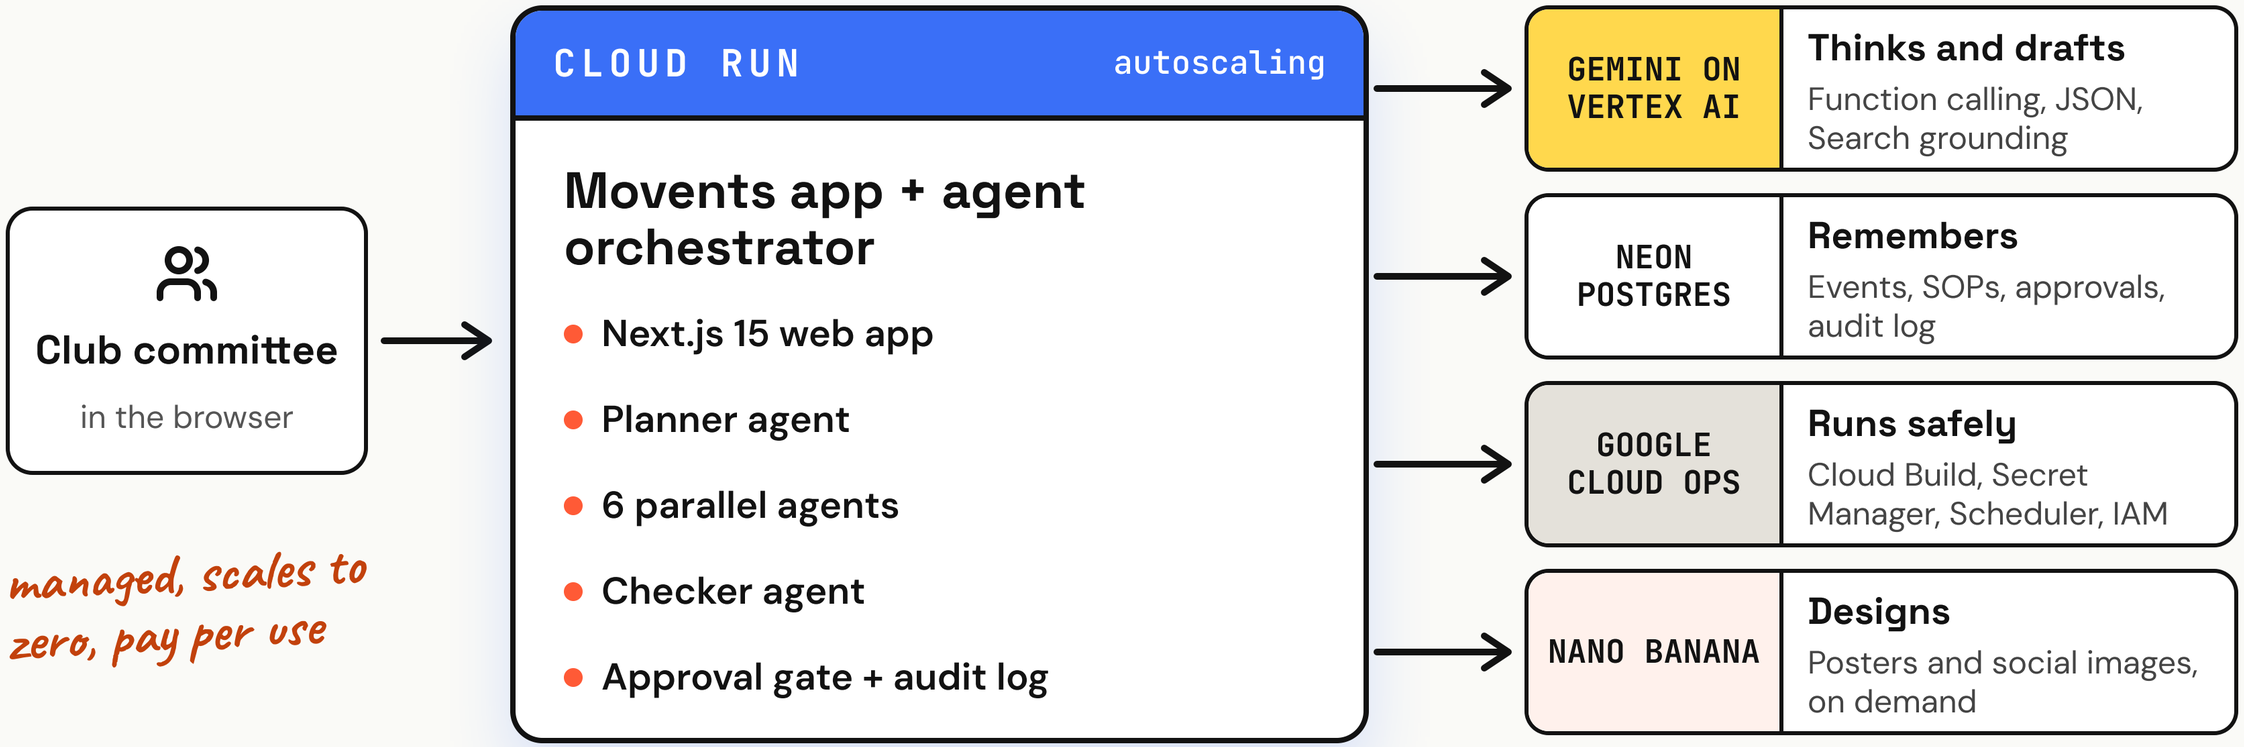

Gemini agents that check their own work

Every step is logged to an audit trail · Nothing is sent without an approver's sign-off

05 · BUILT ON GOOGLE CLOUD

Gemini thinks. Cloud Run runs it.

Gen AI: Gemini on Vertex AI · Hosting: Cloud Run (asia-southeast1) · Data: Neon Postgres

06 · THE MARKET

We start with student clubs

ONE CAMPUS

80+

student clubs at Sunway University

→

ONE COUNTRY

312

campuses in Malaysia, ~15,600 clubs

→

THE WORLD

32,000+

campuses, with 269M students

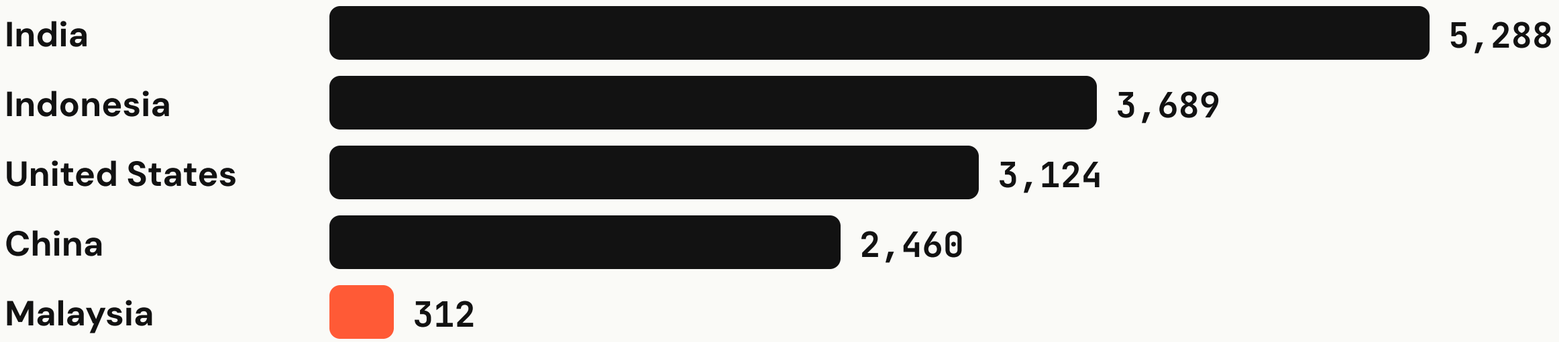

→

THE MARKET

1.6M+

student clubs, all planning by hand

CAMPUSES PER COUNTRY

Works for any event team. Student clubs are where we start.

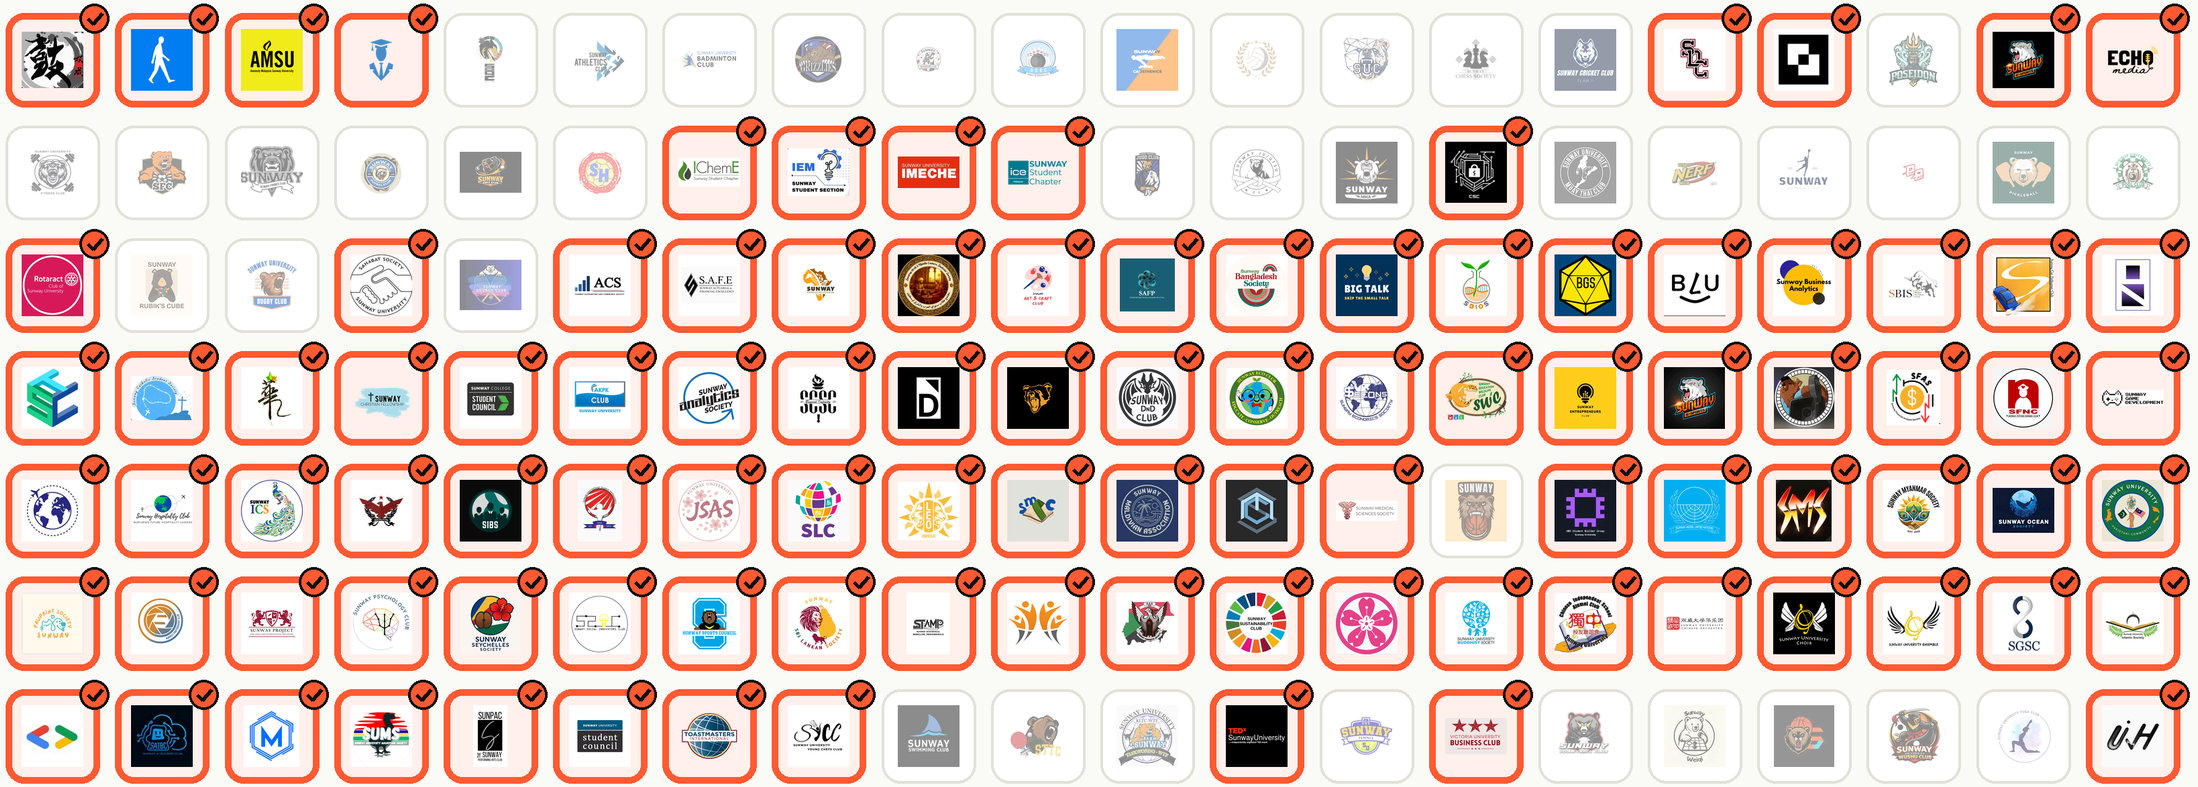

a huge market, and no one is serving it

Sources: Sunway University · Webometrics 2026 · UNESCO 2024 · clubs = campuses × 50 (our estimate)

07 · EARLY INTEREST

96 Sunway clubs already want in

96 of 136 clubs
+ 4 partners said yes

Clubs from student.sunway.edu.my (Oct 2026) + 4 partner clubs · Orange = saw the deck and demo, said yes · Grey = not yet asked

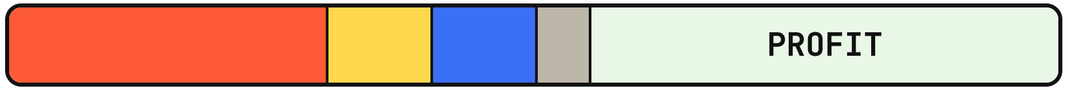

08 · HOW IT PAYS

Three tiers, profit on every club

90% want it, can pay

GENERAL ADMISSION **Free**	**Every club**	Proposal, budget and approvals in your uni's format
VIP **RM49/mo**	**Busy clubs**	Speaker outreach, follow-ups, Luma sync, reports
BACKSTAGE **RM15k/yr**	**Whole campus**	Student affairs dashboard, SOP upload, audit log

ONE VIP CLUB, ONE MONTH

Gemini AI agents	RM14.80
Web search	RM4.90
Cloud Run, database, email	RM4.90
Card fees	RM2.50
Our cost (busy club, 6 events)	RM27.10

RM49 price − RM27.10 cost **+RM21.90**

profit per club, every month (45%). A typical club running 2 events nets ~RM38.

90% = clubs we demoed to · Costs: our estimate (Gemini Flash list price) · US$1 = RM4.10

09 · COMPETITOR ANALYSIS

The judges' scorecard

WHAT CLUBS NEED	☆ Movents	ClickUp	CampusGroups	Luma, Meetup	ibl.ai
Follows your uni's own SOP	Yes	No	Partly	No	Partly
Drafts proposal + budget	Yes	Partly	No	No	Partly
Finds + emails speakers	Yes	No	No	No	No
Role-based approvals	Yes	Partly	Yes	No	No
Made for student clubs	Yes	No	Yes	Partly	No
Price	Free club tier	Per user	~US$8k/yr	Free–US$59/mo	Pilot from US$15k

the only one that ticks every box for a student club

Any event team. Starting with clubs.

FEASIBLE NOW

- **Working prototype**, live on Cloud Run
- **100 clubs** said yes to a pilot
- Built by student leaders behind **50+ events**
- **Pays its way:** free for clubs, RM49/mo for busy clubs, RM15k/yr per campus

SCALES BY DESIGN

- **New uni = upload its SOP.** No new code
- **Cloud Run autoscales**; Postgres keeps each campus separate
- Next: **campus offices, companies, NGOs**, any team that runs events

OUR VISION No event team loses months to paperwork again.

THAT'S A WRAP

events, minus the dents ✦
